Professor Humphrey's SPECIFIC Homoopathic Medicines, ...FOR..... Families, Travelers, and others.

Medicines have been carefully prepared, with a view of supplying families and others with *Specific Remedies* against all the most prevalent diseases which occur in every day life. List includes not only remedies for all common diseases, such as Coughs, Colds, Headaches, Derangements of the Stomach, Worms, Complaints, Diarrhœa, &c., but those more sudden and violent diseases which require to be met on the spot of the most to as Cramp Cholera, Dysentery, Inflammation, &c. &c., for which treatment it is very desirable to have the proper remedies on hand, are also remedies for those more female derangements which a lady finds difficult to disclose, but yet a freedom from attributes so much to the happiness and comfort of life.

These Medicines are prepared in the form of Pellets, one of which is sufficient for a dose, and put up in boxes properly labelled, each box containing 30 or 40 Pellets, and one of the different kinds, are enclosed in a compact well with a small Manual or Book, giving a concise description of the disease, and directions for giving the medicine, &c., necessary for a cure. Cases containing four or six of the small boxes are sold, which may be supplied with any of the kinds at the option of the purchaser. *Advantages of Specific Homœopathic Medicines*, prescribing other Homœopathic Medicines for twenty will be recommended for headache, diarrhœa or fever, and such other, and discrimination is required in proper cases. But there you have specifics for each particular disease, and any one of them with benefit and production whatever and study which the [illegible] to bestow, and without that requisite examination which, to the unpracticed, is so perplexing, admoniting, and invalid, is so perplexing. The advantages are so obvious as to recommend them to all.

TREMONT MILLS. Teas, Coffees, Chocolates, Cocoas, Spices, &c. WHOLESALE AND ALSO IN SMALL QUANTITIES. E. E. DYER & CO. (Sign of the Chinaman grinding Coffee.) 181 WASHINGTON STREET BOSTON. Supply the best teas and purest articles, at the *lowest Cash prices*. Their Stock consists of Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar, Tamarinds, Licorice, Indigo, Cochineal, Root, &c.

Having every facility for manufacturing and preparing the several articles named, the public may rely on having them *pure and genuine*, as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO." To give consumers some idea of our teas, we annex the following scale of prices, viz:

5lb. Southern Tea,	[illegible]	5lb. Mocha Coffee,	1,00
5lb. Oolong Tea,	[illegible]	5lb. Java Coffee,	[illegible]
5lb. Y. Hyson Tea,	[illegible]	5lb. Rio Coffee,	1,00

☞ The Spices are put up in 4 and 8 lb. packages, expressly for family use, and we warrant them to be strictly a pure article, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of consumers and dealers to our *Spanish Coffee*, an article which is highly esteemed, and gives the greatest satisfaction. It is prepared by a particular process, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1½ lbs. of any other.

DANDELION COFFEE.—This article is carefully prepared at our mills, and put up in packages having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.

BARANAGUM or *Prepared Dandelion Root*. This article is prepared and roasted at our Mills, and is sold by Family Grocers generally in city and country, and bearing our trademark "*Chinaman grinding coffee*," may be relied upon as the genuine article. The proportion used is about one half the quantity of coffee. The price is 20 cents per pound, and it is warranted to be the same as that which has been sold for fifty cents a pound by druggists.

The medical properties of Dandelion are well known, and held in high estimation by all who use it. This Root, in preparation of the coffee, with all its medicinal virtues retained, can be mixed with coffee in that, as best suits the taste, and will be found cheap and economical as a family beverage one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians, to invalids, children and aged persons, as a nutritious beverage, and as a remedy for dyspepsia, bilious affections, &c.

☞ Be careful to observe that all our *Coffees* have our trade mark, "Chinaman grinding coffee."

☞ To *Grocers and Dealers* a liberal discount is made, enabling them to supply their customers at the same low rates.

TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite a examination of the *quality* of our stock, and our prices, as compared with those of any other house.

J. RUSSELL SPALDING'S ROSE MARY

This great and popular preparation is decidedly one of the most useful and valuable articles in the world for the HAIR!

It imparts a rich, soft, brilliancy, gloss, ornaments, invigorates, embellishes, destroys dandruff, relieves headache, and has probably been used for restoring and preventing the falling off of the hair with as much success as any article ever known! It has stood the test of time and use, and is deservedly popular.

Try it! Try it!! Try it!!! DR. W. STONE'S LIQUID ATHARTI AN FAMILY PHYSIC,

This most important discovery ever made in Medical Science, being a compound of Barks and Roots, which forms the most powerful, safe, and agreeable physic ever offered to the public.

THE necessity of a medicine to supersede pill or other drastic physic is felt by physicians. It adopts taken over estimates, for in the form of Pills or powders must be obvious to every intelligent person. It operates more immediately and effectually upon the system, and at the same time is infinitely less difficult in its nature, being quite as agreeable to take. It not only produces all the effects where physic is required, but completely removes habitual Costiveness, leaving the bowels perfectly free. It expels all humors from the blood. In a certain cure for the Piles. It is also the best cure of a Liver, free from mercury from Bile, invigorates the whole nervous system and removes the cause of all local pains such as *Rheumatism, Neuralgia, The Dolourous, Gout, Pain in the Head, Side, Stomach*, &c.

It may also be relied upon in all diseases of the Bowels—DYSENTERY, DIARRHŒA, AND CHOLERA MORBUS, yield at once to its magical influence. Again we repeat, TRY IT!—It need no longer remain a question. Nothing will be without it after they have properly tested its merits. Reader, if you have tried other remedies without success, despair not—relief is now at hand. Are you suffering from Scrofula, six bottles of my Liquid Cathartic will cure you. Would you be relieved from habitual Costiveness, three bottles will effect all that you desire. Are you afflicted with Rheumatism, Neuralgia, or other painful pains, one bottle will effect your cure. All humors will be eradicated from the blood, by the use of from one to six bottles. In short, it is required by physic for any purpose, this is the most reliable, safe, and agreeable to the taste that has ever been placed within the reach of the public.

PRICE $1,00.

IMPORTANT NOTICE.

GARDNER CHILSON has just completed and patented in America, England, and France, his new invention—THE "CONE FURNACE"—and asks the special attention of those about erecting or remodeling buildings, as we has dealers in Hot Air, Steam or Hot Water Furnaces, and all interested in Steam Power, to carefully examine this invention, which entirely *changes* the principle and character of Hot Air Furnaces, *developing heat for and a new principle*, and obviating all former objections to their use. The practical operation of a number of these Furnaces, erected during the past winter, points out a new discovery in science by which the most powerful economy in fuel has been obtained, and clearly demonstrates that the vast heat lost from chimneys is enough to warm every dwelling in the city. By this invention the heat formerly lost is made to warm the houses.

This discovery—simple in itself—is the daily wonder of those who witness its results, and it becomes a matter of surprise that a plan so simple and so practical in its operation, should thus far have entirely escaped the notice of scientific men. We believe that no one who investigates this principle will be liable to pass a Furnace constructed on any other principle, and we invite all who are intending to put in a Furnace to call and examine them at my store before deciding.

A GOOD CLEANSING BITTER. To Be Taken in the Spring

BE kind enough, reader, to give your attention one moment, and you will learn that

C. A. RICHARDS'

ABBOTT BITTERS

ARE GOOD FOR

They have been made and sold 40 years—eight years by the present proprietor, and note this great truth, he has facts in his possession showing that they have cured and helped thousands, yea, thousands of cases of

INDIGESTION,

Nervous Debility, Sick Headache, Dyspepsia, Costiveness, Dizziness, Depression of Spirits, Oppression after eating, Acid Stomach, Sick Headache, Sickness of the Stomach, Derangement of the Liver, Water Brash, Humors, Dyspeptic Functions, Colds and Coughs, Costiveness, Rheumatism, Female Obstructions, Loss of Appetite, Pain in the Side,

—AND—

Torpor of the Liver and Bowels.

Reader!—you are approached earnestly. Don't say, "I could only believe this to be true, I have some of the above complaints, and I would take the medicine at once if I could only have confidence." IT IS TRUE: it is an honest truth, if ever there was one spoken. Come then, if your mind is irritable, discontented, and gloomy—if you have severe Colic-Pains after eating your food—if your body begins to waste, or your strength to fail you—if your countenance assumes a haggard and sallow aspect—if you have a difficulty in lying on your left side—if your skin is dry and shrivelled—if you have an appetite weak and variable, and perhaps entirely destroyed—if your whole system is languid, especially during the process of digestion—if you have a constant uneasy feeling in the stomach—why, you have only a fit of INDIGESTION! and these great Bitters are made to cure Indigestion, and they will do it, too—and all attendant ills; and while at first it gently stimulates, they strengthen, cleansing and removing the troublesome agents.

IT ACTS UPON THE SKIN, Removing morbid or vitiated Humors, beautifying the face, kindling life and energy, in your entire frame; then, reader, will the world *no longer look dark and gloomy, no longer* will your dearest hopes be banished and thrust aside, but with

HEALTH AND STRENGTH

You will go forth into the world, to enjoy with thousands of others, C. A. RICHARDS' ABBOT BITTERS have done wonders for me. The label is copyrighted, and each bottle, for the protection of the consumers and proprietor, bears the portrait of Doctor Wm Abbot, together with the signature of C. A. RICHARDS, Proprietor, *83 State Street, Boston.*

GREAT American and Foreign Office FOR Securing Patents for Inventions.

AGENCY FOR BUSINESS WITH THE U. S. PATENT OFFICE, WASHINGTON,

R. H. EDDY, No. 76 State Street, opposite Kilby St, BOSTON.

IMPORTANT INFORMATION TO INVENTORS.—The subscriber, (late Agent of the U. S. Patent Office under the Act of 1837,) determined to present advantages in applying for patents, superior to those offered inventors by others, his multiple arrangements, whereby, on applications prepared and prosecuted by him, THIRTY DOLLARS (instead of *forty, as paid heretofore by others,*) will be remitted by him in case of failure to obtain a patent, and the withdrawal, through him, within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below, given prove that more is MORE SUCCESSFUL AT THE PATENT OFFICE, than the subscriber and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, are full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procurel of patents in this and foreign countries, prepared, and advice rendered on legal and scientific matters, reporting in questions, and infringement of patents. All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are thus avoided.

Copies of the claims of any patent furnished for *one dollar*. Assignments recorded at Washington. Patents secured in Great Britain, France, and other foreign countries, through agents of the highest respectability.

R. H. EDDY, *Solicitor of Patents,*

TESTIMONIALS.

"During the time I occupied the office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office as an active practising Patent Agent. There were few, if any, persons engaged in a similar capacity, who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the honorable and most skilful Patent Solicitors in the United States, and have no hesitation in advising inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them as early and favorable consideration at the Patent Office.

EDMUND BURKE, Late Commissioner of Patents.

[From the present Commissioner.]

"Washington, August, 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the laws and the rules of practice of the Office. I regard him as one of the most capable and correct practitioners with whom I have had official intercourse.

Cheap & Convenient Building Door, Sash and Blind Factory. A. DUNBAR

HAS been very successful in competing several contracts for Door Frames, Doors, Window Frames and Sashes, and Blinds for good dwelling-houses and other buildings to be erected in this city, the coming season. He has excellent workmen in his employ, and has superior stock, so that he is now able to supply to those about to build the best articles of Door Frames, Window Frames, Sashes, and Blinds made to any dimensions and of superior quality, either for a whole building or for a less quantity. The trouble and expense of building is very much lessened by having these articles made separately, so that the carpenters have only to put them in their place in the structure.

This business has now become so well systemized that only a small margin is left in knowing beforehand the cost of a dwelling house, with the work is of a uniform excellent quality.

Any one interested can examine specimens of the work at the factory, near the Rose Plant, or at the store of Mr. S. J. Jackson, on Exchange st., and at either place any article may be obtained or large quantities ordered.

Mr. Dunbar is also prepared to furnish Window Blinds ready painted, and will hang them at the shortest notice.

By long experience, and by determined perseverance, the subscriber is now enabled to suit his customers, both in quality and price, and so well organized is the business that no man should now think of building in the old and slow and imperfect methods.

The Republicans Awake! Grand Rally for November!

The Republicans of Bangor and vicinity will have a Grand Rally on Tuesday evening Oct. 30th, at *Norombega Hall*, in preparation for the great closing contest of the campaign when Maine is determined to give fifteen thousand Majority for Freedom and Fremont.

A grand Torch Light Procession will be formed at 7 o'clock, and, with music and escort will march through the principal streets. After which it will proceed to Norombega Hall, where speeches appropriate to the crisis will be delivered by Hon. Israel Washburn and others.

LET THE STRAIGHT WHIGS REMEMBER.

That the Bangor Journal, while keeping a list of "Whig nominees" for Electors in its columns, is NOT IN FAVOR of JAMES BUCHANAN FOR THE PRESIDENCY, although it refuses to put up his name.

Something for the People to Remember.

The latest abominable outrage upon the free State immigrants in Kansas, committed by the direct authority and order of Gov. Geary, should arouse, if possible, a more general feeling of indignation throughout the free North, than has heretofore existed. The wrong and the insult are of the most unmitigated atrocity. A company of peaceful emigrants, numbering 250 men, women and children, from the States of New York, Indiana, Ohio, Illinois, Wisconsin and Iowa, attempted to enter the Territory for settlement, and had even stooped to solicit and obtain the permission of Gov. Geary to enter with the ordinary forms of emigrants.—But no sooner were they within the lines, than they were arrested, by a deputy marshal of the United States, at the head of 400 troops armed as a posse, and with a couple of artillery.—The whole party were taken prisoners by this squad of *United States troops* under United States authority, and all the wagons, baggage, farming utensils and provisions were seized and placed under guard, and instructions given *to shoot any one of the emigrants who might attempt to escape.*

It is could be remembered that this infamous outrage upon free State immigrants was committed by direct authority of the new Governor, who it was announced, with a great flourish would act as an impartial and just arbiter between the pro-slavery and free State men, and would restore peace to the Territory.

LET IT BE REMEMBERED, that his United States official performs his promise by stopping the free State emigrants who attempt to enter the Territory, and seizing their arms, agricultural tool and provisions, while every avenue is freely open to the Missourians and Southern ruffians, whether they come as actual settlers, or only to vote in the elections.

AND LET IT BE REMEMBERED, that THIS is the kind of "popular sovereignty" allowed in Kansas by the democratic party!

Not a single pro-slavery man has yet been arrested by order of Geary! but the murderers and robbers of free State men are walking abroad openly in the Territory, and some of them are in places of trust and profit.

On the other hand between one hundred and two hundred of the free State men have been incarcerated in prison for the crime of defending their lives, their families and their property—one it is reported that Geary has issued warrants for the arrest of hundreds more.

If James Buchanan is elected President all this and much more will be said to be just fired by the American people!! And Kansas will be helplessly delivered over to slavery!

WHOLESALE AND GENERAL.—Up to the 20th of September, Gov. Geary had not made a single arrest of the border-ruffians who had murdered, pillaged and outraged the free settlers of Kansas. Chapman, who openly boasts of his cowardly murder of Barber, was at large, enjoying a lucrative office from the national government. This *impartial* Governor has, however, issued no less than *four hundred and thirteen warrants* for the arrest of free State men, for alleged and in nearly every instance trumped up offences!

CHEER NO INTELLIGENCE.—The Boston Bee says: Hon. Anson Burlingame and Hon. E. C. Baker, who have been speaking in the Republican cause in Pennsylvania, have returned to Massachusetts. They represent the result highly favorable to Fremont's prospects in November, and so to be regarded by his friends there.—It had convinced all the anti-Buchanan Americans that there was but one leader to victory, and that Fremont.

CONSERVATIVE. In one year New York city eats 185,000 oxen, 12,000 cows, 550,000 sheep and lambs, 40,000 calves and 280,000 swine!

AN EXCLUSIVE CALL FOR "AID TO KANSAS." A number of gentlemen have published a notice in the Journal for a "*Whig and Democratic*" Loyal Meeting at Norombega Hall, on Friday evening, in aid of any distress which may exist among the real *bona fide* settlers of Kansas, and they remark that "the funds will be forwarded so that they may be sure to reach their intended object." The Journal accompanies this with an editorial, charging those who have heretofore been active in obtaining aid for Kansas, with stealing and embezzling the funds, and with a deliberate purpose of basely turning from their proper channel the charitable donations which have been made by the people of the North.

We shall rejoice to have the "Whigs and Democrats" (if there be any of the former class left, independent of Buchanan men) do something in aid of the sufferers of Kansas. The democratic leaders particularly, the action of whose party, in and out of Congress, has brought all the suffering and destitution upon the free State people of Kansas, by first opening the territory to slavery, and then abandoning it to free emigrants to border ruffian invaders and pro-slavery Governors—they and all those who aid and abet the party administration by their votes, *should* do something in order to relieve the distress of the miserable victims of their political crimes. But probably Fremont will be elected and the party in power will probably feel a very open hand for that vast Territory, to curse it for unmitigated years to come. If this election is not repeated we can at least rejoice if the blood and tears of the suffering sons and daughters of freedom have at last touched the consciences of those who, by their votes and their political action have sustained and do yet sustain and encourage the infamous men who commit the crimes against freedom!

Let our "Whig and Democratic" fellow-citizens do as much as their consciences may prompt them to do for the sufferers in Kansas. We shall not complain, even though they assume to exclude all the rest of the community by the terms of their call. But we do protest against the insults and the slanders which they cast upon the true friends of Kansas, and upon those who have endeavored to keep slavery out of that Territory. We pronounce the charge of fraud and dishonesty in the disposition of Kansas funds, thus made, indirectly but plainly against our most respectable citizens—both ladies and gentlemen, who have had the management and forwarding of the Kansas relief funds—against the Emigrant Aid Society—against the proprietors of the New York Tribune, and the Boston Journal, and many others in prominent stations who have generously offered to be mediums of forwarding relief to Kansas—we pronounce the charges made by the Journal unanimously against all these respectable citizens and associations and friends of Kansas to be utterly base and false, and worthy only of the basest of men. That money sent for Kansas will be any *safer* in the hands of democratic politicians, or of the bogus Whig editors, who now make such vile and false charges against the Republicans, we think no one will be likely to imagine. The full force of the insult, however, will not only be pointed when it is considered that those who now charge fraudulent fraud upon the friends of Kansas, are those *who of the party which fought all the calls made upon the free States by that Territory*, and without which the present call for aid would not be necessary.

Aid for Buford and Stringfellow.

The Journal intimates that the Republican friends of Kansas have contributed their money, not to relieve personal distress in the Territory, but to furnish arms and ammunition for the "squatters" to enable them to fight the pro-slavery men, and also for Republican election purposes in Pennsylvania!! Does the Journal wish us to assert that the "*Whig and Democratic*" aid for Kansas is to be devoted to providing new keepsakes and canteens for Buford's regiment, or a fresh supply of whiskey and bowie knives for Stringfellow's volunteers? Or that it is to be appropriated for purchasing more illegal votes for Buchanan in the coming Presidential election?

CONGRESSIONAL EXPENSES. In relation to the salaries of Congressmen, the Boston Advertiser says, "It should be observed that about all of the reported democratic gains in the House, are gained by the expense of the American members, who, for all practical purposes in the present Congress, have co-operated with the administration. These gains therefore are merely nominal."

STRIKE OF THE OPERATIVES. All of the spinners and many of the weavers in Lowiston, quit work last Monday evening at six o'clock. They had petitioned for the adoption of the clever system, and, on being refused, they resolved to come out at the expiration of what they deemed to be a sufficient period to work. All who came out were discharged next morning.

NEW BOAT FOR THE KENNEBEC ROUTE. The Gardiner Transcript learns that a splendid boat is now in course of construction in New York, and will doubtedly be taken by place on the route between Gardiner and Boston, early the coming Spring.

The Wall Street forgeries in New York, of Huntington, are now ascertained to amount to a much larger figure than has been before stated. The recapitulation is—

Total amount the Messrs. Waldo, Berry & Co.	$209,221 42
Swords, Walton & Co.	10,621 52
Claflin, Mellin & Co.	48,280 22
Booth & Tuttle	16,433 00
Hope, Graydon & Co.	41,337 99
Arnold, Constable & Co.	33,809 26
Bliss, Briggs & Douglass	19,107 20
J. Beck & Co.	15,332 18
Ward, Babcock & Co.	4,696 86
Graydon, Swanwick & Co.	15,000 00
Total	$412,199 73

To this may be added the amount forged upon Messrs. Phelps, Dodge & Co., and others already published, which will swell the figures to a grand total of three hundred and twenty-seven thousand nine hundred and forty-six dollars.

Supreme Judicial Court---Chief J. Shepley Presiding.

FRIDAY, OCT. 24.

Rufus Dwinel vs. Samuel Veazie.

This is an action for changing the main and westerly channel of the Penobscot river above the Piff's mills, called the "Dwinel Block," at Lower Oldtown, and diverting the channel, and carrying the water off from said Dwinel's mill, whereby the said property of great value, has become comparatively land of little or no value. Also for filling up and obstructing the said channel and Piff's mill pond with slabs and edgings and other waste lumber, so as to divert the water from the Piff's mill and choke up the channel, in such manner as to annoy and injure the Piff's, and deprive him of the reasonable use of his mill privileges. The damages are laid at $50,000.

The case has been on trial since Monday, and will probably occupy the remainder of the week. The second Jury has been dismissed until Monday next.

MERCANTILE LECTURES. It will be seen by a notice in another column that the committee of the Mercantile Association announces its sixth Annual Course of Lectures to commence at Norombega Hall on Thursday evening Dec. 4th. Tickets one dollar for the course.

The committee, we understand, have made, and are making arrangements for a brilliant as well as an instructive course of lectures, and certainly at a very moderate price. The efforts of the Mercantile Association for the intellectual gratification and improvement of our people have been consistent and effective, ever since its formation, and we believe, are fully appreciated. The list of lectures is not yet completed, but will be made public in a short time.

DROWNED. Catherina Collins, Hammerle, the wife of Sebastian Hammerle, a German workman in the employ of Hinckley & Drury was found dead yesterday (Thursday) morning in the stream opposite Pearson & Johnson's Wharf on Exchange Street. Coroner Field was called upon to hold an inquest on the body, and the following facts appeared on examination.—That the deceased has been for years a notorious drunkard, forsaking her home, husband and child—for months together, and for this reason her husband has applied for a divorce;—that on the night previous the discovery of her body, she had made numerous applications for liquor up and down Exchange street, and had become very much intoxicated. The jury rendered a verdict in accordance with the above facts.

A man named —— Lawrence was yesterday missing from the Soldiers Home, and nothing had been heard from him. A person answering his description was seen about half-past nine Wednesday night to pass down Broad St. The schooner laid outside of another at the wharf, and it is feared he may have fallen into the dock and been drowned. His hat was found on the wharf last evening.

HARPER'S MAGAZINE for November, is received from Messrs. A. Williams & Co., Boston. Among the beautifully illustrated articles is an account of the "Massacre of St. Bartholomew," by John S. C. Abbott; "Up and Down the Andes," by Holton; and an interesting article upon the history and habits of the Horse, by T. B. Thorpe.

The number is an excellent one. It is for sale by Hughes & Co.

The Savannah Republican says: "The much talked of Convention of Southern Governors, at Raleigh, to deliberate upon the proper course for the South in the event of Fremont's election, was attended by Governor Wise of Virginia and Gov. Adams of South Carolina, *all four!*"

Snow fell at Lynchburg, Virginia, on the 14th of October, and it is said would have laid to the depth of an inch or two but for subsequent rain. We have seen no snow in Maine the present season.

FOR 1857. The Illustrated Christian Almanac—adapted for use throughout the United States, and with a great variety of statistical information upon various subjects is for sale by E. F. Duren.

Gov. Geary of Kansas is undoubtedly *boxing on the goose* which is stated to be the owner of seventy-five slaves in Virginia.

The introductory address before the "Young Men's Association" is postponed till further notice.

RAILROAD DISASTER—FURIOUS THE WARTION. On Monday night some villain broke the locks containing three switches on the P. S. & P. Railroad, at Cape Elizabeth, near the Junction, and removed the switches from their proper place. On the day morning the freight train from Boston was partly thrown from the track in consequence, and several of the cars were upset. The fireman of the engine, Mr. George Millikin, either jumped or was thrown from the machine and severely injured. The engineer fortunately did not run off the track, and sustained no injury. Mr. Russell, the Superintendent of the road, has offered a reward of $500 for the detection of the scoundrels who perpetrated the act. We hope they will be discovered, and brought to justice.—*Portland Advertiser.*

There is a story told of a Dutch justice of the peace who on hearing the plaintiff's suit promptly decided that the latter was in the right. When he heard the defendant's side he concluded that the defendant was right, upon which the justice's wife observed that if both were right there must be something wrong about the judge. Here upon the judge rose and gave his opinion that his wife was right.

A band of English gypsies have pitched their tents near Albany, where they intend to spend the winter, telling fortunes, &c. They are well to do, with horses, health and money in plenty.

VERY PROPER. The Superior Court in Suffolk county recently quashed an indictment for an assault upon a female, on the ground that it did not appear by the indictment but that it was a *female cat!*

THE ELECTION FRAUDS IN PENNSYLVANIA.—According to the Pennsylvania journals, the immense frauds committed in that State last week were not confined solely to the city of Philadelphia. They appear to have been diffused all over the State, and especially in Pittsburg. Hordes of ragged ruffians whom nobody had ever seen before, made their appearance on the polls, and boldly swore in their votes, though it was known that they could not have been citizens, nor residents of the wards where they voted. The Pittsburg Gazette says:

"We doubt if ever, in the previous political history of this city, so many unknown and before unheard of men presented themselves at the polls for the purpose of voting as came thither on Tuesday last. We know of one ward in the city where the population is by no means a fluctuating one, where every man almost is acquainted with every other man who claims a vote at that poll, and yet men came up to vote—men who had been assessed, and who threw into the faces of the judges their receipts for taxes paid, who at the same time were utter strangers to all except to those who lugged them to the window and told them what to do and how to do it."

The Plaqumining process seems to have been pretty extensively tried, but it is an expensive and troublesome business, and the Pennsylvanians will doubtless devise some scheme during the coming fortnight to save themselves from being so outrageously cheated of their suffrages in November. And after all these immense frauds, the Buchananites have got but 2760 or 2800 majority in the State, according to the official returns.

A PRO-SLAVERY PROVIDENCE.—The Washington Union, in its ponderous jubilation over the Pennsylvania election, is awfully profane. It says:

"And what a spectacle has that great State presented since the opening of the canvass!—What strange and evil men and strange and evil doctrines have been seen and heard by her people! The infidel has been there crying aloud for an Anti-Slavery Bible and an Anti-Slavery God!

"Not to believe in a Pro-Slavery Providence and a Pro-Slavery Bible, then, it seems, according to the political theology of the Administration organ, is infidelity. Nine-tenths of the Christ no where are to be found, according to the Union. The Abolitionists must have a Bible and a God of their own.—*N. Y. Times.*

ILLINOIS. This great State contains exactly one hundred counties. Fifty of these, lying South of Springfield, the capital, contain a population of about 500,000, and are expected to cast about 65,000 votes, of which the Democrats claim that they will have a majority of 20,000. The Republicans concede them a majority of 18 or 20,000. This portion of the State is called "Egypt" from its being settled chiefly from the Slave States, and having consequently a larger proportion of people who cannot read or write. The fifty Northern counties contain a population of 800,000, and are expected to cast 125,000 votes, of which the Republicans expect a majority sufficient to extinguish that of Egypt, and some to spare.

ROYAL BRIDAL ADVANCE SHEETS. The bridal arrangements for the magnificent trousseau of the bride, &c., in view of the approaching marriage of the Princess Royal of England at Berlin, attract so much attention that hundreds are actually going from London to witness them.—There are six rooms filled with silks, satins, ribands, velvets, costly laces, artificial flowers, exquisite embroideries in gold and silver, bonnets, caps, gowns, gloves, body and table linen, diamonds and jewelry, shawls, mantles, and other requirements of every description, colors and material. Thirty persons have been engaged several months on the embroidery, and one hundred and twenty needle-women have worked on the different articles.

A NOBLE EXAMPLE. The ladies of Medford, Mass., have collected in two weeks the sum of nine hundred and twenty-five dollars, to be appropriated by the State Aid Committee for the relief of the suffering and destitute in Kansas. Most of the Irish laborers, says the Boston Journal, poor as they were, volunteered contributions of ten to twenty-five cents a half, saying they did it in remembrance of American aid to their native land during the great famine of 1847, and if it were spring instead of cold weather, they would contribute a barrel or two. Their priest gave five dollars, and promised more if it should be needed.

SHIPBUILDING IN THOMASTON. Eight sloops and one bark have been built in Thomaston during the present year—an increase in comparison over last year of nearly 1800 tons. At $60 per ton the value of these vessels is about $625,000. The enterprising builders do not seem to have anticipated any entire dedication of the freighting business consequent to the carrying of Maine for Fremont.—*State of Maine.*

The Machias Union says that Hon. John C. Talbot is elected Judge of Probate for Washington county, by 30 majority, but the abstracts of the town returns as returned to the office of the Secretary of State show that John C. Talbot has 3306 votes, and Jotham Lippincott 3252 votes, giving Mr. Lippincott 46 majority.—*Kennebec Journal.*

FATAL ACCIDENT. On the 14th of October, Sarah S. Skinner, wife of Geo. Fordyce Blake, of North Cambridge, Mass., in attempting to take a car for Boston, was thrown between them, and before she could be rescued was so injured that she lived only until about half-past nine o'clock on same evening. She has many friends in this State.

A singular phenomenon was witnessed at Marquette, Minnesota, 23d ult. An apparition like that of a monster serpent of a bright silver color, was seen wending its way to the upper regions. He was 50 or 80 feet in length and had the form and waving figure of a reptile, and ascended higher and higher until it disappeared in a cloud. Probably it was the spirit of the sea serpent.

"Did you ever, neighbor, see me with more than I could carry?"

"No, indeed," was the reply, "not I; but I have seen you when I thought you had better have gone twice after it."

ELECTION OF U. S. SENATOR IN VERMONT.—*Montpelier, Vt., Oct. 22.*—Hon. Solomon Foot, of Rutland, was re-elected United States Senator, this forenoon, for six years from the 4th of March next.

SHOCKING. A Boston husband has been heard to declare that "there won't be quite heaven for his wife, unless it is Washington street was there!"

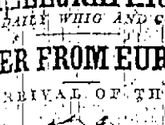
LATER FROM EUROPE.

ARRIVAL OF THE



Steamship Arabia,

AT HALIFAX.

HALIFAX, Oct. 23.

The steamship Arabia from Liverpool, arrived here at about 10 o'clock this forenoon.

The Quebec and Philadelphia steamers from Liverpool 8th, carried intelligence that the Bank of England had unexpectedly raised the rate of discount, and the Bank of France contributed its share—Sir Crampton was Knighted; but there was nothing really new in the Nassau affair, but the subject had been anxiously discussed by the French Cabinet, assisted by English and Neapolitan Ministers—that numerous arrests of discontented had been made in Paris—Spain was quiet, and that the Danish Kingdom was reconstituted.

Telegraphic despatches say that the Austrians, four thousand strong, have occupied Galatz and other points of the Danube, and that Russia and Turkey has assented to the occupation; the Danubian Commissioners will resume hostilities, however, expected that Austria will be called on to evacuate the principalities at once by the Congress at Paris, and the Czar can attest no other course but obey.

Britain.

The Parliament has been further prorogued to Nov. 3d.

The English Telegraph Companies gave a banquet to Professor Morse in London on the 8th, W. F. Cooke presiding. Cyrus W. Field was an honored guest. Amongst others present were, Lord Shaftesbury, Dr. Bloch, Capt. Beecher, Chas. Wylde, Rowland Hill, Daring Scott, Bailey, Woollaston, and many others interested in the telegraph. Prof. Morse has succeeded in telegraphing over the united wires of the Magnetic Telegraph, an English and Irish Company, a distance of 2000 miles, at the rate of six hundred and ten signals per minute.

France.

The opening sessions of the French threes on the Bourse Friday evening, were 68,80 for money, and 67,10 for the end of the month, showing a recovery of one quarter per cent.—M. Mayne, minister of Finance, has in the Moniteur a lengthy report on finances of the present year, views them favorably.

Italy.

The despatches from Naples to the 29th ult. intimate that the King is still determined to resist all demands and remonstrances. But some of the German papers report that he has succeeded in make certain concessions, and that Count Demartini, the Austrian Ambassador, Naples, will, it is hoped, complete the Bourbon Bulwer has commenced. Martini is bearer of Ferdinand of autographic letters from Francis Joseph in which he is implored in behalf of clemency between the two contending dire, down misfortune not only on Naples, but on the whole of Italy. Meanwhile Herbert has sent, or is about to send, very voluminous despatch to the European Powers containing a defence of himself and his government.

Two English ships of War with Admiral Dundas on board were at Ancona and more were expected.

French fleet continued at Toulon.

A strong Russian fleet commanded by Grand Duke Constantine is to go into the Mediterranean merely in guard of honor to the Empress Mother's tour in Italy.

The Austrian squadron is to cruise in the Adriatic solely for exercise.

Switzerland.

M De Saligman Proctel, French Ambassador to the Swiss Confederation, paid official visit on the 13th instant to M Stampfli, President of the Swiss Confederation for purpose of asking from him in the name of the French Government an indulgent on the Royalists of Switzerland. It is believed that the Federal Government would assent to this request only on condition that the King of Prussia shall renounce his claims on the principalities.

Denmark.

Sudterland, newspaper, not good authority maintains that the question of the Sound Dues is settled. England and Denmark have come to an arrangement and the land trouble is to be reduced.

Turkey.

Business is sort for the tranquility of Syria.

Nothing important from Turkey proper except a rumor that the majority of the commissioners for the Danubian Principalities have refused to discuss the proposed questions until the Austrian troops evacuate, and until Russian decrees the meeting of the Divan on such terms as are embodied in protocols of the treaty of Paris.

India & China.

By at Trieste. Dates from Calcutta 8th Sept. Ships from Melbourne 12 July, and from Galle 16 Sept.

Preparations for a Persian Expedition were vigorously carried on in all departments in India.

Two steamers have been despatched in haste from Calcutta to the Persian Gulf.

The Indian government had opened a new loan at six per cent loan for an unlimited amount which had disturbed the money market.

Bombay Exchanges were 2s and penny halfpenny

Calcutta Exchange steady, at 2s 1d.—Throughout Melbourne. Wet weather caused a temporary depression in trade and there was a decrease in the gold production, but were signs of a revival and commerce was sound.

Friday, 8 o'clock P. M.—English funds are quiet, without material alteration. No great activity has been apparent in business, but there appears to be increased confidence—cotton for money we quote 92 1-2 to three quarters for account 91 7-8 to 92 1-8. Exchequer bills four to eight shillings premium; Exchequer bonds 3 1-2 to three quarters, and India bills 7 to 11 shillings premium.

A despatch from Vienna of the 6th says:—"Correctly to a common tradition from Naples of the 29th, published in the Austrian Gazette would appear that the King of Naples has written to Queen Victoria and Louis Napoleon that he was desirous of taking part in the new Conference of Paris for the purpose of making known the act of amnesty, and the important reforms it was his intention to grant."

Madrid Oct. 8.—By a Royal decree published in the Gazette this day, M. Tamara is named Spanish Ambassador at Washington.

Advices from Constantinople of the 1st say A misunderstanding about the Isle of Serpents is likely to bring the French fleet back again. Some Austrian ships of war have gone to the Isle of Serpents, and two others are expected here. Admiral Lyons is still at Bujukdere.

Liverpool Markets.

Liverpool Breadstuffs—The weather has been very wet.

Wheat has advanced one and two pence on the week, market closing steady.

Free State Convention.

TOPEKA, Oct. 16.

A Delegate Free State Convention was held here to-day, at which it was decided not to hold an election for Electors of President and Vice Presidential tickets, on account of the disturbance and distress prevailing throughout the State.

A Mass Convention is called to be held at Big Springs on the 28th inst., for the purpose of providing for the Election of a Delegate to Congress, the election of J. W. Whitfield being repudiated by the settlers, as based upon the fundamental laws of the bogus Legislature.

An emigrant train of nearly 300 persons arrived yesterday via Nebraska, under the direction of Col. Eldridge, all in fine condition and spirits. They were all arrested by the regular troops, and brought in as prisoners, but discharged on arrival.

The Grand Jury are finding indictments against the free State prisoners charged with murder, and the trials begin to-morrow. W. P. Arny from the National Kansas Committee arrived yesterday to ascertain the condition of the settlers and effect an arrangement with the State central committee for mutual co-operation.

CHICAGO, Oct. 23.

Advices from Lawrence to the 14th inst. state that the emigrants arrested at Plymouth had been released and that Gov. Geary had ordered them to disperse or leave the territory. They retired to different settlements and claims. 100 arms found in their wagons were released.

The Pennsylvania Election.

The following are the footings up of official returns from all the counties except Elk and McKean: Scott, Democratic candidate for Canal Commissioner, 212,643; Cochran, Union, 229,147; Democratic majority 8,500.

Accident to Steamer Hero.

PROVIDENCE, Oct. 23

The Steamer Hero, for New York, with 100 passengers and a light freight struck on a sunken rock off Hayatt last evening. In attempting to run to the shore she struck the Dolphin, and sunk in four feet of water. The passengers were taken off by the Perry, from Newport to Providence, this morning. The freight was saved to a good. A steam pump had been taken down to free her from water. At the last accounts she had not been moved.

Horse Show.

BOSTON, Oct. 23.

The Horse Show to-day was attended by at least 30,000 persons, a great many of whom were ladies. The exhibition of roadsters, saddle horses and matched was good. The great excitement was the trot in the afternoon between Flora Temple and Lancet for $1000. Flora won the purse, in three straight heats—time 2:30 1-2; 2:40 and 2:43. Lancet broke badly on each heat. The $75 purse was won by Mystery. To-morrow Ethan Allen and Flora Dow go again for another purse of $1000. Pocahontas the famous pacing mare has been sold to Reuben S. Denny of Leicester Massachusetts.

Dollitication—State Agricultural Society.

PORTLAND, Oct. 23d.

The cannons fired 100 guns here to-day, and in the night processions came off in the evening, in honor of the recent victories in Pennsylvania and Indiana.

There is a tremendous crowd in the city attending upon the State Agricultural Cattle Show and Fair.

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES ALWAYS OPERATE PERFECTLY, being strong, durable, and complete in contrivance and workmanship. A perfect Sewing Machine kept in close repair affords a clear profit of $1000 a year, but an imperfect one is a constant vexation and loss. The undersigned, of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING, of a full and delicate construction, are offered by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skillful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and the same is true of our machines. The success of our machines has lately been doubled. Now the can compare with those in quality of work.

Now machines, of the latest improved kind, will be exchanged on liberal terms for old sewing machines, of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N. B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I. M. Singer & Co's Gazette," a paper devoted entirely to the subject. It will be sent free.

REV. M. Thatcher, N. York. Allow me also to state that, after a thorough trial, my confidence is by no means diminished in the value and efficacy of your Restorer, &c. I have no hesitation in recommending it to my friends, notwithstanding the habitual disgust at the extravagant promises and puffs of the numberless nostrums with which the papers are filled.—*July 1, 1856.*

AMBROTYPES!
Rooms---No. 1 Main Street.
THE subscribers have the pleasure of announcing to the citizens of Bangor and vicinity, that they have recently opened in new and spacious suite of Rooms in the city for making Ambrotypes.

The genuine Ambrotype, (among other things that distinguish it from all other pictures,) is taken upon fine plate glass, upon which is placed another glass, the two being united by an indestructible gum, thus securing it from dust, dampness, or liability to damage from any source.—The pictures do not tarnish, are free from that unpleasant reflection peculiar to the Daguerreotype, and are the only photographic pictures that do not change.

Those having pictures they wish to preserve, can have them copied by this process.

The public are respectfully invited to examine the pictures at our Rooms.

Entrance next door North of No. 1 Main Street.

N. B. The genuine Ambrotype can be obtained only at our Rooms.

Worth Reading.
WHEN, by long study and practice, some physician has discovered a new principle in medicine, by which pain may be removed and disease cured, more surely and effectually than before, it immediately becomes his duty and to bring it before the public to give to all an opportunity to profit by his discovery. For this reason the proprietor of the *genuine* Allied Ointment and Syrup offers his preparation to all who are afflicted with Scrofula, Salt Rheum, Cancered Humors, Fever Sores, Pimples, and other eruptions, with the assurance that in nearly every case where they have been tried they have effected permanent cures. Every agent can give reference to persons in his vicinity who have been cured by them.

Steamers Westenport and Locust Point.

NEW YORK, PORTLAND, MONTREAL and QUEBEC

Steamship Line.

Connecting with the Grand Trunk R. R.

The A 1 first class Steamers WESTERNPORT and LOCUST POINT, one year old, 500 tons burthen, will leave Portland and New York every SATURDAY, at 3 o'clock P. M., until further notice.

The proprietors are determined to make it the cheapest and most reliable route between the Eastern and New York.

Goods will be always taken free of drayage from the Baltimore, Norfolk and Richmond line of steamers, without any charge for drayage in New York.

Goods forwarded by this line to Montreal, Quebec, Burlington, Boston, and the eastern states, at the cheapest rates.

Produce shipped by this line can be insured at the lowest rates.

California Steamers,

Carrying the United States Mail.

5th and 20th of each Month.

Great Reduced Prices. 50 lbs. Baggage Free.

Through Tickets, including transit of the Isthmus via Panama R. R.

By order of the Postmaster General the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense*. This is the only line giving entire Through Tickets, including meals, on the Isthmus.

Transit made in *four hours, entirely by daylight*, thus avoiding the great exposure by night in open boats to fever and ague, and 200 miles of dangerous lake and river navigation, over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Mail Steamers will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail line a saving of *three days* passage, without any detention on the Isthmus.

☞ *Tickets must be signed by one of the Company's Agents before they will be recognized by the Agent at Panama*, and Tickets thus signed, can be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Companies, in this city, C. L. BARTLETT, Agent,

LINCOLN'S WATER PROOF BLACKING,

AND LEATHER PRESERVATIVE,

Keep your Feet dry and you will seldom need a Physician.

Science is truth that when the feet are often wet, it is one of the greatest causes of colds and consumption. It is a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks; but when the water-proof this is rubbed on, by the application of this preservative, it remains soft, and entirely impervious to water.

After being engaged for 25 years in the manufacture of Leather, in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and at last succeeded in making it water-proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It not only makes leather water-proof, but it likewise softens the leather, and it will.

Positively wear twice as long.

I have now used it for three years, and a large part of that time have worked in a wet Tannery, with my boots constantly in the water, and have not had my feet wet during that time. I can therefore in a confidence, recommend it to the public as the best article in the market.

from whatever cause it may have originated, and

No Matter of How Long Standing.

This popular and specific remedy is now offered to the afflicted, and guaranteed to cure all the above complaints, it searches out the very roots of the diseased driving out all the diseased fluids of the body, thus removing the causes and rendering the cure

Perfect and Permanent.

This medicine allays pain and inflammation, which other remedies invariably cause, and can be taken with less trouble and expense to patients. This infallible remedy has saved thousands upon thousands from the hands of

Merciless Quacks.

Not from prophesying graves. In cases of Infection, the Compound Buchu is the only article worthy of the least confidence of the afflicted in performing

SAFE CURES.

It contains no mercury, or other injurious drug, but is a purely VEGETABLE COMPOUND. It is very agreeable to the taste, creates no perceptible odor, and may be taken by persons of either sex without hindrance from business or medical advice, as per directions for use accompany the medicine. Reader, if you have any of the above complaints, do not neglect them.

Delays are Dangerous.

With this medicine you can cure yourself, and thus prevent all exposure.

Truth must and will prevail.

This medicine speedily and effectually cures the most virulent form of secret diseases, and eradicates every particle of infectious matter from the patient, to a perfect state of *Health and Purity*.—And as a medicine which must benefit everybody, from the nature, delicate to the confined and languishing invalid, it is equal to be found, it ranking high as a *Cure and Preventive* to many of the above ailments.

HELMBOLD'S

HIGHLY CONCENTRATED

Compound Fluid Extract Sarsaparilla,

—FOR—

Purifying the Blood, removing all diseases arising from Excess of Mercury, exposure and imprudence in life, or any constitutional disease arising from any impurity of the Blood, and the only reliable and effectual one in remedying for the cure of Scrofula, Salt Rheum, Scald head, Ulcerations of the throat and legs, Pains and Swellings of the Bones, Ulcers, Pimples on the Face, and all scaly Eruptions of the Skin.

It is gratifying to the proprietor of these medicines to be able to state that it is known for the five years since they were first introduced, during which time they have been extensively used in all parts of the United States, and have given to patient and practitioner the highest degree of satisfaction in the various cases in which they have been employed, whether in town, country, hospital, or private practice, they have invariably given the most decided and unequivocal satisfaction, and produced the most salutary and beneficial effects. Numerous letters have been received from the most distinguished physicians in the country, and from the professors of several medical colleges, recommending in the highest terms the value of these medicines, and their superiority over all other preparations for such complaints as the proprietor recommends. Numerous preparations of Sarsaparilla and the Iodides, and various modes of preparing them have been given, all of which of course will differ according to the mode of preparation which each individual may adopt.

These medicines require considerable care in the preparation; and the employment of different menstrua in succession operation to take up the extractive matters and in consequence, are most frequently improperly made, and not unfrequently much impaired if not rendered totally inert, by the injudicious and doubtful management of those unacquainted with pharmaceutical preparations. This, therefore, of the highest consideration and importance to the public and to the faculty, that there shall be standard preparations of uniform strength and possessing the most advantageous. To effect this, and obviate the difficulties to be encountered in the most efficient mode of extracting the virtues of the Sarsaparilla and the Buchu, and to discover the most eligible form for their exhibition. The experiments have resulted most favorably, and it is with much pleasure I now offer to the public and the faculty, my Compound Fluid Extracts, which contain all the virtues of the articles they are represented to be made from in a highly concentrated form, and are the most active preparations which can be made. Two table spoonfuls of the Extract Sarsaparilla added to a pint of water is equal to the Decoction, and one bottle fully equals a gallon of Syrup Sarsaparilla or decoction, as usually made.

PROFESSOR WOOD'S

HAIR RESTORATIVE

IS, no doubt, the most wonderful discovery of the age of progress, for it will restore, permanently, gray hair to its original color, cover the head of the bald with a luxuriant growth, remove at once all dandruff and itching, cure all scrofula, and other cutaneous eruptions, such as scald head, tetter. It will cure, as if by magic, nervous or periodical headache; make the hair soft, glossy, and wavy and preserve the color perfectly, and the skin from falling, to extreme old age.

The following is from a celebrated member of the medical profession:

ST. PAUL, January 21, 1855.

Professor O. F. Wood—Dear Sir: Unsolicited, I send you the certificate. After being nearly bald for a long time, and having tried all the hair restorative extolled, and having no faith in any, I was induced, on hearing of your, to give it a trial. I placed myself in the hands of a barber, and had my head rubbed with a good stiff brush, and the lotion applied and well rubbed in, till it was sore and glow. This I repeated every morning, and in three weeks the young hair appeared and grew rapidly from August last until the present time, and is now thick, black and strong—soft and pleasant to the touch. Whereas, before it was harsh and wiry, what little there was of it, and that little was disappearing very rapidly. I will use your restorative thus twice a week, and shall soon have a good and perfect crop of hair. Now I had read of these things,—and who has not? but have not seen hitherto any case where any person's hair was really benefited by any of the hair tonics, &c., of the day, and it really gives me pleasure to record the result of my experience. I have recommended your preparation to others, and it is really has a high and general sale throughout the territory. Some people have now its effects, and the demand is made for it. The supply you sent us, as wholesale agents for the territory, is nearly exhausted, and daily inquiries are made for it. You deserve credit for your discovery, and, I trust, return you my thanks for the benefit I have done me, for I certainly had despaired long ago of ever effecting any such result.

Yours, truly,

H. W. BOND,

Firm of Bond & Kelley, Druggists, St. Paul.

From the Editor of the Real Estate Advertiser.

Boston, 27 School street, March 29, 1855.

Dear Sir: Having become premature gray, I was induced, some weeks ago, to make a trial of your Restorative. I have used less than two bottles, but the gray hair have all disappeared, and although my hair is not fully attained its original color, yet the process of change is gradually going on, and I am in great hopes that in a short time by its aid I will be dark as formerly. I have also found it a most healthy moisture to the hair, which before was harsh and dry, and it has caused it to come out abundantly.

Respectfully yours, D. C. H. RUPP.

Professor Wood:

CAMDEN, Illinois, June 15, 1855.

I have used Professor Wood's Hair Restorative, and have derived its wonderful effect. My hair was becoming, as I thought, premature gray, but by the use of this Restorative, it has resumed its original color, and I have no doubt, permanently so.

THE GREATEST MEDICAL DISCOVERY Of the Age.

DR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds, a remedy that cures

EVERY KIND OF HUMOR,

From the worst Scrofula down to a common Pimple.

He has tried it in over 1100 cases, and never failed except in two cases (both thunder humor). He has now in his possession over two hundred certificates of its virtue, all within twenty miles of Boston.

Two bottles are warranted to cure a raging sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will clear the system of blotches.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and foul nine tubers.

One bottle will cure a scaly eruption of the skin.

Two to three bottles are warranted to cure the worst cases of ringworm.

Two to three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure the salt rheum.

Five to eight bottles will cure the worst cases of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Recently I peddled over a thousand bottles of this medicine in the vicinity of Boston. I know the effect of it in every case. Shame on water with extinguish fire, so sure of this cure humor. I never sold a bottle of it but that sold another after a trial it speaks for itself. There are two things about this medicine that appear to me surprising; first, that it grows in our pastures, in some places quite plentiful and yet its value has never been known until I discovered it in 1843—second, that it should cure all kinds of rumor.

In order to give an idea of the sudden rise and great popularity of the discovery, I will state that in April, 1843, I peddled it, and sold about six bottles per day; in April, 1844, I sold over one thousand bottles per day of it.

Some of the wholesale Druggists who have been in business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I always keep it entirely for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspected.

Several cases of epileptic fits in a person who was always considered incurable, have been cured by a few bottles. O, what a mercy if it will prove effectual in all cases of that awful malady—there are but few which need more of it than I have.

I know of several cures of Deafness, all of them aged people, cured by it. For the various diseases of the Liver, Sick Headache, Dyspepsia, Asthma, Fever and Ague, Pain in the Side, Diseases of the Spine, and particularly in Diseases of the Kidneys, &c., the discovery has done more good than any medicine ever known.

No change of diet is necessary—eat the best you can get, and enough of it.

DIRECTION FOR USE.—Adults one tablespoonful for a dose. Children from seven years down, a teaspoonful. As no directions can be applicable to all constitutions, it is sufficient to operate on the bowels twice a day.

The Principal Office for the State of Maine and the British Provinces is at the Drug and Medicine Establishment of H. H. HAY, 15 & 17, *Market Square, Portland, Maine*, to whom all orders should be addressed. Sold by respectable Druggists throughout the United States and British Provinces.

PRICE $1.00.
